SUMMARY

Passionate Frontend Developer with over 1.5+ year of experience, I specialize in crafting responsive, scalable web applications. With a strong foundation in full-stack development, particularly the MERN stack, I focus on creating impactful, user-centered solutions. I thrive on challenges and am committed to continuous learning to bring innovation and efficiency to every project.

PROFESSIONAL EXPERIENCE

Software Developer   Oct 2024 – Current

- Designing and developing end-to-end web applications with a strong focus on performance, scalability, and seamless user experiences.
- Collaborating directly with clients to understand their requirements and deliver tailored solutions.
- Responsible for the complete project lifecycle, from initial design to final deployment, ensuring high-quality and responsive web applications.

Front-end Developer, PureCode AI – Hyderabad   November 2023 –July 2024

- Designed and implemented various UI components for applications, e-commerce, and Marketing platforms.
- Contributed to the enhancement and maintenance of PureCode AI website.
- Created reusable components for e-commerce platforms, enhancing user experience and driving sales.
- Created and optimized UI elements for better performance and user engagement.
- Created responsive design components to ensure seamless usability across different devices and screen sizes.

Trainee - Software Engineer, Greenmen Consulting   June 2023 – Oct 2023

- Collaborated with the development team to improve the accuracy and efficiency of component annotations.
- Gained practical experience in understanding and documenting various UI elements and their functions.

EDUCATION

Nitte Meenakshi Institute of Technology Bengaluru (Affiliated with VTU)   2018 - 2022

Bachelor of Engineering (CGPA - 7.20/10)   *Bengaluru, Karnataka*

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Bootstrap, Tailwind CSS
Backend: Node.js, Express
Databases: MongoDB
Version Control/Tools: Git, Git Hub, Postman, Restful API.

PROJECTS

ERP Management System

Description: Designed and developed a centralized ERP Management System for Lithvik Enterprises to streamline and automate core business operations across departments. The system provided real-time visibility, data consistency, and operational efficiency by integrating key modules within a unified platform.

- ERP Management System modules are included like EMP, Attendance, Payroll, Order, invoice management system etc.

Components Creation for PureCode AI Websites

Description: Spearheaded the development of a comprehensive suite of reusable UI components for PureCode AI's e-commerce and marketing platforms.

- Engineered various components like headers, footers, navigation menus, product cards, and modals using HTML, CSS, JavaScript, and ReactJS.
- Focused on performance optimization and cross-device compatibility through the use of frameworks like Tailwind CSS and MUI.
- Collaborated with design and development teams to align components with the company's overall design system.

Greenmen Consulting – Website Annotations

Description: Worked on annotating key website components to enhance accessibility and development accuracy.

- Annotated various components such as buttons, images, headers, footers, cards, dropdowns, modals, forms, and navigation menus for React-based websites.
- Improved the overall usability and accessibility of the websites by providing detailed and structured annotations for each UI element.
